api_mail always return NULL - that is false

15/12/2014 20:18 - Torkil Zachariassen

Status: Bug resolved  
Priority: Normal  
Assignee:  
Category:  
Target version: 1.9.10  
Complexity: Normal  

Description

api_mail is deprecated and api_mail_html should be used
api_mail therefore calls api_mail_html, but fails to return the result of this call

This was biting us on 1.9.8 using functions like 'Review incoming course requests'
Here is a unified diff which solved the case for us.

Regards Torkil on Chamilo-1.9.8.2, CentOS-7.0.1406, httpd-2.4.6, php-5.4.16, mariadb-5.5.40
