SCRUM pts - complexity: ?

Description
api_mail is deprecated and api_mail_html should be used
api_mail therefore calls api_mail_html, but fails to return the result of this call

This was biting us on 1.9.8 using functions like 'Review incoming course requests'
Here is a unified diff which solved the case for us.

Regards Torkil on Chamilo-1.9.8.2, CentOS-7.0.1406, httpd-2.4.6, php-5.4.16, mariadb-5.5.40
