Description

Following commit https://github.com/chamilo/chamilo-lms/commit/0d621c382a3902f57d8d53d76ec5153b4c8975b0 in which a huge chunk of code from the mySpace/index.php script has been commented out, we have lost the screen where admins used to find a list of links to access detailed reports (an example screenshot here)

These reports are very important, and although the commit message says "Simplifying reporting", I did not imagine that this would have made them all disappear.

I've reviewed the code changes but I'm not sure I understand the logic behind it, and that, re-inserting the removed code, I'm not going to break more. So I'm reassigning this to the original author of the commit... Please recover that screen (the star icon, with param "?view=admin").

I restore that view, but I didn't find those reports "reporte de encuesta", "reporte avance lecciones", etc. I check in chamilo 196 and those didn't exist... in which version this reports exists??

I think some of them are specific to the customer version where I took the screenshot. Don't worry about them. Thanks! Reviewing now.

#3 - 23/01/2015 18:11 - Yannick Warnier
- Status changed from Needs more info to Bug resolved
- Assignee changed from Yannick Warnier to Julio Montoya
- % Done changed from 0 to 100

Good for me.
