Description

Currently, it is impossible to "convert" a question from single-answer mode to multiple-answers mode.

Develop a way to convert them (the database structure is the same).
When converting from multiple-answer to single-answer, just choose only the first correct answer as true and set the other ones to 0 (if positive)

Associated revisions

merge and change name of swapAnswerType() to swapSimpleAnswerTypes() and update comment - refs #7485

History

#1 - 05/02/2015 15:55 - Yannick Warnier
- Status changed from New to Assigned
- Assignee set to Imanol Losada
- Estimated time set to 5.00 h
- SCRUM pts - complexity changed from ? to 5

#2 - 20/02/2015 23:09 - Imanol Losada
- Assignee changed from Imanol Losada to Yannick Warnier
- % Done changed from 0 to 50

PR: https://github.com/chamilo/chamilo-lms/pull/516

There are still few glitches but nothing dramatic.

#3 - 03/04/2015 04:30 - Yannick Warnier
- Status changed from Assigned to Rejected - Abandoned
- Assignee changed from Yannick Warnier to Imanol Losada
- % Done changed from 50 to 100

Indeed, a few things still have to be finetuned, but nothing dramatic considering this is a new (and very useful) feature.

#4 - 03/04/2015 04:31 - Yannick Warnier
- Status changed from Rejected - Abandoned to Feature implemented
