#### Associated revisions

##### Revision ab651669 - 24/03/2015 15:41 - Julio Montoya

Commenting unsupported tags by HTMLPurifier see #7487

#### History

##### #1 - 02/02/2015 22:12 - Angel Quiroz

This warning are displayed by the PHP configuration on error\_reporting value

The files in the HTMLPurifier folder shown on the image belongs to 1.9.x (<https://github.com/chamilo/chamilo-lms/tree/1.9.x/main/inc/lib/htmlpurifier/library/HTMLPurifier>)

They have been removed on 1.10.x (<https://github.com/chamilo/chamilo-lms/tree/1.10.x/main/inc/lib/htmlpurifier/library/HTMLPurifier>) and the warnings are not shown

##### #2 - 24/03/2015 15:43 - Julio Montoya

HTMLPurifier doesn't filter those values.  
I'm commenting some code, so those warnings should not appear.

##### #3 - 24/03/2015 15:48 - Julio Montoya

- Status changed from New to Needs testing

##### #4 - 24/03/2015 17:32 - Yannick Warnier

Isn't that going to remove the filtering for these fields? I guess not as they were never supported...

I had the same doubt: this errors are showed because of this line:

```
$config->set('HTML.Allowed', $allowed_html_student);
```

So yes, they never were supported.

**#6 - 04/04/2015 02:46 - Yannick Warnier**

- Status changed from Needs testing to Bug resolved
- Assignee set to Julio Montoya
- % Done changed from 0 to 100

I didn't have the message for some time now, so I consider it closed.
