

Chamilo LMS - Bug #7495

Ipad view problem

Description Ipad view switches directly from 3 to 5 icons when resizing a window. It doesn't seem possible to display 4 icons. Therefore it makes the page look very wide in teacher view and when switching to student view, icons are not centered anymore. There is a large empty gap on the right side.

History

Tested in Safari and Firefox. Same behavior.

#2 - 02/02/2015 22:47 - Angel Quiroz

This could be solved with responsive web design for some screen resolutions and the selectors `.course-tool:nth-child(3n-2)` for tablets and mobile screen size

Yes, this is more an issue of CSS. Sorry, we won't fix that one (you could hire someone to make a CSS for you).

This is teacher's view. Student's view is normal.

Oh, this might be related to <https://support.chamilo.org/issues/7559> then. If you could try to apply the changes proposed by André and report, that would be great!
