

Chamilo LMS - Feature #7570

Improve logins report

03/03/2015 23:34 - Yannick Warnier

Status:	Feature implemented	Start date:	03/03/2015
Priority:	Normal	Due date:	
Assignee:	Yannick Warnier	% Done:	100%
Category:	Tracking / Reporting	Estimated time:	0.00 hour
Target version:	1.10.0	Spent time:	1.67 hour
Complexity:	Piece of cake	SCRUM pts - complexity:	2

Description

In `/main/admin/statistics/index.php?report=logins&type=month`, the logins are shown by month (which is OK).

However, there are two tables, and the second table includes completely all the data from the first table (so the first table can be removed, with hopefully the queries it generates).

Then the table should be reversed. The last month should appear first, to avoid having to scroll down to check the latest results.

Associated revisions

Revision dda9a382 - 23/03/2015 15:11 - Imanol Losada

Remove logins report second table and query when logins are shown by month. Change order by to DESC - refs #7570
