A new PR for 1.10 is needed.

Hubert, any chance you would be able to work on this before the end of the week? If no answer before Friday, I'll assign it here for execution.

I just added this for 1.10

I see the new page and the courses on it, but it doesn't do anything when I click the "+" sign... (even if the corresponding course is part of 2 different sessions - I suppose it should show me the sessions)

Did you cleaned your archive folder? there's a js error?

OK, apparently some cache issues, yes, but now the icons are weirdly "compressed" in width="24", height="48".

Also, the link to the course on that screen is based on course.code instead of course.directory (create a directory "courses/BAM/" then create a course with code "BAM" to check, it will automatically create a folder like "BAMb05" or something like that and that's where the link should go).

#13 - 13/08/2015 09:15 - Julio Montoya

I fixed both issues.

#14 - 13/08/2015 16:20 - Yannick Warnier
- Status changed from Assigned to Feature implemented
- % Done changed from 50 to 100

Indeed you did. Thanks.
