#### Description

Apply changes made to <https://github.com/beezenst/chamilo-lms-icpna/tree/virtual/> to course homepage by which the HTML section (course introduction) is parsed to find items with {{ brackets }} around them, and look for a match in a learning path that is present on the course homepage but of which the icon is hidden.

This allows one to customize the look of the introduction section while maintaining coherency when the course is given through a session (without having to edit the link).
