Description

Taking as version 1 the functionality of the current Open Badges Plug-in in Chamilo LMS 1.10.x, we propose to add some new features to it such as:

- Improvement of the evidences field taking information from the course description.
- Improvements on unique identifiers for certificates and badges.
- Possibility to earn a badge after completing an exercise.

This features are targeted for version 2.0, however, it would be possible to include them in a minor revision Chamilo LMS version 1.10.x.
