Description

Hi,

When we download an entire folder in Documents, sub-folders are lost.
All files are flat in the zip.

I'm in 1.9.10.2 and I didn't test in 1.10 but the 1.9.8 work fine

Thank you very much

History

#1 - 04/09/2015 11:29 - Joachim Lucas

I just tested version 1.10 and the problem persists. ZIP is flat.

#2 - 04/09/2015 11:53 - Yannick Warnier

- Status changed from New to Assigned
- Assignee set to Julio Montoya
- Target version set to 1.10.0

We'll have a look at that.

#3 - 07/09/2015 11:28 - Julio Montoya

I confirm that bug in 1.10

#4 - 07/09/2015 12:21 - Julio Montoya

- Status changed from Assigned to Needs testing
- Assignee deleted (Julio Montoya)

Fixed in 1.10

#5 - 08/09/2015 00:50 - Yannick Warnier

- Status changed from Needs testing to Assigned
- Assignee set to Julio Montoya

- % Done changed from 0 to 20

I'm still seeing the error:

- create a course
- go to documents tool
- create HTML document aaa.html
- create a folder called "d1"
- enter the folder
- create HTML document bbb.html
- get back to the root folder of the documents tool
- click the zip icon
- inside the zip, aaa.html and bbb.html are at the root of the structure...

#6 - 08/09/2015 09:30 - Julio Montoya

- Status changed from Assigned to Needs testing

- Assignee changed from Julio Montoya to Yannick Warnier

Should be fixed now.

#7 - 10/09/2015 18:44 - Yannick Warnier

- File documents(3).zip added

- Status changed from Needs testing to Bug resolved

- % Done changed from 20 to 100

It seems to only work on new courses (not sure, given I have a just-installed dev portal), but OK, from my point of view it is fixed.

#8 - 10/09/2015 18:44 - Yannick Warnier

- Assignee changed from Yannick Warnier to Julio Montoya
