Description

To reproduce:

- create a course
- create a LP
- create a document and place it as first page
- link the document to a forum
- look at the learning path as student (or as admin, it doesn't matter)
- add a message to the forum thread
- -> the full site headers appear inside the LP content frame (baaaad)

Fixed!

Asigno a Alex para corregir un problema con el overflow que no permite hacer scroll en el foro dentro del ifram

#5 - 18/12/2015 23:22 - Alex Aragon

El problema estaba en el ajax que llama al foro.

```javascript
var forumIframe = $('<iframe>').attr({
  width:'100%',
  frameborder:'0',
  scrolling:'yes',
  tabindex:'0',
});
```
la propiedad del iframe scrolling estaba en NO, cuando debería estar en YES.
