Description

When I try to create a global agenda event, I get redirected to the portal homepage. This seems to have something to do with the event type and the move to agenda_js.php, but I'm not sure what has changed in there.

In any case, it's impossible to create a global agenda event (except maybe by creating a global announcement and checking the option to create a global event).

Fix agenda creation see #8020

History

#1 - 29/12/2015 14:28 - Julio Montoya
- Assignee changed from Julio Montoya to Yannick Warnier

Should work now

#2 - 02/03/2016 18:55 - Yannick Warnier
- Status changed from Assigned to Bug resolved
- Assignee changed from Yannick Warnier to Julio Montoya
- % Done changed from 0 to 100

Works for me
