Description

Hi all, I've inserted more than 10 courses in my portal 1.10.2. displaying courses catalogue, pagination is not showed. I must select another category first, than "show all" again to see pagination (1/2) in the bottom left of the page. I've tested several browsers but nothing change. If I try to refresh page each time change the number of courses displayed, anyway pagination still disappear.
Any idea?
