% Done: 100%
Estimated time: 0.00 hour
Spent time: 0.00 hour
SCRUM pts - complexity: ?

Description
When installing a 1.10.x today, my administration section, parameters configuration screen, show many times the "show_tabs" option. Apparently, this is a display bug, because the database itself only contains the normal number of entries:

mysql> select * from settings_current where variable = 'show_tabs';

only shows 9 entries, which is correct.

On screen, it appears like this:
Display categories on home page
- Yes
- No

This option will display or hide training categories on the portal home page.

Tabs in the header
- Portal homepage tab
- Dashboard
- Agenda tab
- Courses tab
- Platform Administration tab
- Reporting tab
- Social network tab

Check the tabs you want to see appear in the header. The unchecked tabs will appear on the right hand menu on the portal homepage and my training page if these need to appear.
