#### Description

In Chamilo 1.8 (and maybe 1.9), it was possible to see a list of tags that could be used in announcements, but this disappeared from 1.10.

Please make this tags list visible again (can be found in AnnouncementManager.php::parse_content()).

The feature seems like it would still work, but the tags do not appear on screen anymore.

In 1.8:

![Image of Chamilo 1.8 announcement page]

In 1.10:
Ideally, this should appear in a unfoldable option (too avoid it taking too much space on screen), but just showing them at the bottom of the form (after the submit button) would be ok as well.
