Hi,

if you have a test with several hotspot question on one page, if you put points to answer the first question, you'll not be able to move points on the second question.

See screencast [http://screencast.com/t/lvvE0D4uij8](http://screencast.com/t/lvvE0D4uij8)

For example, if you put 1 point to answer the first question, you'll have bug moving the point 1 on second question. You cannot select the point 2, and if you want to move the point 1, it will move the point 2.
