#### Description

Create a setting `teacher_can_select_course_template` yes/no globally (yes by default).

When the setting is enabled, when a teacher creates a course (or an admin creates a course from the admin panel), he can pick a course as a template for the new course he's creating (with an AJAX search box)

If the global course template setting is set (setting which course is used as a template for **all** new courses), **and** the teacher selects a template, then it is the teacher-selected template that is used.

### #1 - 31/03/2016 23:11 - Angel Quiroz

- Status changed from Assigned to Needs testing
- Assignee deleted (Angel Quiroz)
- % Done changed from 0 to 80

Added for 1.11.x and master

### #2 - 01/06/2016 04:15 - Yannick Warnier

- Status changed from Needs testing to Assigned
- Assignee set to Angel Quiroz
- % Done changed from 80 to 50

In a fresh 1.11, as a teacher:

- create a first course YW1
- enter the course documents
- create 3 folders: week 1, week 2, week 3
- go to "my courses"
- create another course YW2 using YW1 as template
- enter the course documents
- folders week 1, 2, 3 are not there

Conclusion: this does not work.

### #3 - 09/06/2016 02:00 - Angel Quiroz

### #4 - 29/06/2016 02:51 - Yannick Warnier

- Status changed from Needs testing to Assigned
- Assignee set to Angel Quiroz

This is still not working for me in 1.11.x.

As a teacher in course1, I create course2 using course1 as template, but the documents in course1 are not copied in course2. No sessions involved. No error in error\_log.

### #5 - 13/07/2016 23:50 - Angel Quiroz

- Status changed from Assigned to Needs testing
- Assignee deleted (Angel Quiroz)

Fixed

### #6 - 15/07/2016 20:02 - Yannick Warnier

- Status changed from Needs testing to Feature implemented
- Assignee set to Angel Quiroz
- % Done changed from 80 to 100

This is working now. Thanks.
