Description

Currently, when exporting a courses list, all courses are exported. Categories are not exported.

It would be nice to have the option to also export and import the categories in the XML or CSV file. I can see how this would be easier in XML than in CSV (you would need 2 CSV files).

History

#1 - 12/05/2016 01:19 - José Loguercio
- Status changed from New to Needs testing
- Assignee set to Jurgen Gaeremyn
- % Done changed from 0 to 80

This will create a course category, but the name will be based on the category code for now, i think i will create another task to allow the course exporting to export the category name too.

PR: [https://github.com/chamilo/chamilo-lms/pull/1152](https://github.com/chamilo/chamilo-lms/pull/1152)

#2 - 01/06/2016 18:51 - Yannick Warnier
- Category set to Administration
- Status changed from Needs testing to Bug resolved
- % Done changed from 80 to 100

This works for me in 1.11.chamilo.org.
