Bug in question type "fill the blanks"

05/04/2016 17:39 - Jurgen Gaeremyn

Status: Bug resolved
Priority: Normal
Assignee: Jurgen Gaeremyn
Category: Exercises
Target version: 1.10.6
Complexity: Normal

Description
When creating a question of type "fill the blanks", you can set a given value for any field. When you reopen the question, for some odd reason, the first form field score value will show 10 (the default) instead of the value you set up.

See this video demonstrating it: https://filetea.me/t1sdxD0vwxWfQ7xGj8HGdBixg

As a sidenote, the input field size seems to keep changing when you type in the text field (you can also see this in the video). Not sure if this is an issue with this template (academica) or with chamilo. Didn't toggle templates.

Apparently the link doesn't work anymore. Don't worry, it just points to the same file I attached.

#2 - 30/04/2016 01:58 - Yannick Warnier
- Target version set to 1.10.6

#3 - 04/05/2016 17:14 - José Loguercio
- Category set to Exercises
- Status changed from New to Bug resolved
- Assignee set to Jurgen Gaeremyn
- % Done changed from 0 to 80

Confirmed in 1.10.x Fixed here:
PR: https://github.com/chamilo/chamilo-lms/pull/1127

#4 - 04/05/2016 18:48 - José Loguercio
Also confirmed in 1.11.x fixed here too
PR: https://github.com/chamilo/chamilo-lms/pull/1128
