

Chamilo LMS - Feature #8287

Portal maintenance mode

10/06/2016 17:29 - Yannick Warnier

Status:	New	Start date:	10/06/2016
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Global / Others / Misc	Estimated time:	0.00 hour
Target version:	2.0	Spent time:	0.00 hour
Complexity:	Normal	SCRUM pts - complexity:	?

Description

Add a link in the administration page to put your portal in "maintenance mode".

Give 3 options:

- enable maintenance mode
- add exception IPs (text field, separated by commas)
- add an HTML textarea to define the message to appear to user

When the maintenance mode is on, all users that are not using the authorized IP automatically see the HTML textarea (header of Chamilo, text, footer of Chamilo).

That's it for now, but in the future we could consider automatically disabling enabled plugins (after storing the list), for example, or using the default Chamilo style and later recovering the custom style, etc.
