Description

Currently the settings allow_browser_sniffer is enabled, it is used only in user_portal.php without real use

I commit this in 1.10.x [https://github.com/chamilo/chamilo-lms/commit/5d84c533d273d4353de000c7fa1a1bb98b7b3bc5](https://github.com/chamilo/chamilo-lms/commit/5d84c533d273d4353de000c7fa1a1bb98b7b3bc5)

It is necessary to remove the settings and its options
