

Chamilo LMS - Feature #8342

Admins are spammed with new user mail when ldap is used

16/07/2016 17:25 - Jan Derriks

Status:	New	Start date:	16/07/2016
Priority:	Low	Due date:

Target version:	2.0	Spent time:	0.00 hour
Complexity:	Normal	SCRUM pts - complexity:	?

Description

version 1.10.x github.

in https://github.com/chamilo/chamilo-lms/blob/1.10.x/main/auth/external_login/newUser.ldap.php line 69:

```
MessageManager::sendNotificationByRegisteredUser($chamiloUser);
```

causes an email to be sent to all admins every time a ldap user registers in chamilo. That should be configurable.

Easy dirty fix once you find the line above is to add // in front...

History

#1 - 25/07/2016 01:14 - Yannick Warnier

- Tracker changed from Bug to Feature
- Category set to Administration
- Target version changed from 1.11.0 to 2.0

"That should be configurable" suggests this is a new feature request, not a bug report per se. We will consider it in 2.0. Thanks for the "ugly fix" for other users.
