Description
Steps to reproduce:
0. Have a course with +20 students (I had 23) and 1 teacher
1. Click on the user management icon as a teacher in the course
   URL e.g. /main/user/user.php?cidReq=COURSE&id_session=0&gidReq=0&gradebook=0&origin=
2. Go to the 2nd page of the students list.
3. Click on the tab "teachers".
4. You see no teachers (as obviously there is no 2nd page with teachers)

Extra oddity: teacher is also counted in number at the top. Despite only having 23 students, the counter goes to 24. This seems like abnormal behavior in a classroom settings. Typically teachers aren't counted on a classroom list.
Sidenote: Don't know how pagination would react if there were 19 students and 3 teachers and I were to go to page 2....

Expected behavior:
1. Counter only counts within visible tab.
2. Pagination gets reset when switching tabs.
