Description

Hi guys,

I'm not really sure it is the right place to post but...

It's already twice I receive a notification I received new PM on the forum.

When I check, I see that 2 new PM arrived, but the latest message I see in my inbox is the latest one I answered on th 13th july.

I tried using Firefox and Edge and get he same result.

If you can help sorting this out this would be just Great ;)

Thanks in advance.
