Description
Removed from comment on Bug #8470 and set up as new issue.

When trying to set up a currency in the payment plugin, no dropdown list appears to select a currency. We have tried inserting the information manually but his does not work and the plugin will not work unless a currency is selected.

Plugin works fine in 1.10.8 We have tried two clean installs of 1.11 and get no dropdown for currency. Our server uses Ubuntu 14.04. PHP 5.5.9. Tried in Firefox, Chrome, Safari and Edge.

Revision 7ee7e9a1 - 28/10/2016 13:54 - jmontoyaa
Fix plugin activation see #8481

- Status changed from New to Needs testing

I just added a correction for that here:
https://github.com/chamilo/chamilo-lms/commit/7ee7e9a1545f55e84cd33e6d371a3d4a2604cab3

you need to de-activate and activate the plugin.

#2 - 28/10/2016 15:51 - Yannick Warnier
Please note that if you deactivate/reactivate any plugin, the data of that plugin is lost, so don't do that (rather follow the changes made) if you have production data there.
Removing the data on disabling plugin is something we hope to remove in Chamilo 2.0.

#3 - 28/10/2016 19:49 - Paul Wolstencroft
All works fine - tested on two installs with no issues.
Thank you Julio - dta tip noted Yannick.  Thanks
